

Press Release

CS Leasing builds global management team with the appointment of Mike Krengle as VP Operations

Industry veteran with 22 years of container related experience to head global operations, technical sales and procurement to support CS Leasing's expanding portfolio of intermodal solutions across a diverse range of tank, specialized and standard containers.

San Francisco, August 14 2018 – CS Leasing, provider of a wide range of Intermodal lease and equipment solutions to global operators, shippers and logistics providers, has announced the appointment of Mike Krengle as Vice President of Operations. This latest addition to the senior management team comes as the company continues to grow its customer base with a global portfolio of container equipment, finance and lease services to meet ongoing demand.

Based in Houston, Mike brings with him a 22-year record of exceptional customer service and technical expertise across multiple container types, including tanks and dry freight special containers. Most recently Mike worked as a Sales Director for Raffles Leasing. Prior to this, Mike had a wide variety of roles with container lessors, operators and inspection companies, including Hoyer, Cronos, Silver Inspection Services and Stolt-Nielsen.

"Outstanding technical, operational and customer service expertise are all key to delivering on our client-centered approach. Having previously known Mike for a number of years, we know he has the same approach to forming long term relationships with both customers and vendors as the rest of the CS Leasing team." said Tim May, Chief Operating Officer at CS Leasing. "We are delighted to welcome him on-board to support and enhance our continued growth and ensure we are delivering the very best equipment and experience to all our clients."

Formed by a management team with many decades' experience in the design, procurement, financing, supply and operation of containers, CS Leasing has built a diversified fleet of high-quality equipment during its first three years of business, with particular emphasis on tank containers and dry freight specials. The company was ranked as a top 10 lessor in the 2018 Global Tank Container Survey from ITCO, the International Tank Container Organisation.

About CS Leasing

Formed in 2015 by a management team with many decades' experience in the design, procurement, financing, supply and operation of containers, CS Leasing provides high-quality equipment for global container supply chain, shipping and intermodal operations. Our diversified fleet spans dry freight, bulk and tank containers and includes many specialist designs for specific applications and markets.

Our partnership with TCG Ltd and Maas Capital, an ABN AMRO company, both with long track records and focus on investments in the shipping and intermodal sectors, allows us to support customers with a comprehensive range of finance and leasing options and provides a strong platform for further growth.

At a time when industry consolidation has greatly increased the size of container leasing companies and reduced customer choice, our approach is to partner closely with our clients on their individual needs. We provide world-class service with a customer-centric approach to equipment, finance and logistical options and aim to be the partner of choice to all our clients and vendors.
