

Purposed with transporting special cargo by rail or road and available in both 20ft and 40ft, our platform containers are without sides, ends or roof.

Ideal for oversized and irregularly sized cargo, our platforms are most commonly used for transporting machinery and other heavy equipment.

### Key features

- Heavy duty checker plate flooring
- Multiple cargo lashing bars to side and end rails
- Empty lift via the fork pockets
- 10 ratchet winchers per side (40ft variant)
- Laden/empty grappler lift points (40ft variant)

## 20ft Platform

Typical Specification 20ft x 2,500mm x 236mm

Dimensions*	Length	Ext 6,058mm
	Width	Ext 2,500mm
	Height	Ext 236mm
Rating	MGW	30,480kg 67,200lbs
	Tare weight	2,060kg 4,540lbs
	Max payload	28,420kg 62,660lbs

## 40ft Platform

Typical Specification 40ft x 2,500mm x 328mm

Dimensions*	Length	Ext 12,230mm
	Width	Ext 2,500mm
	Height	Ext 328mm
Rating	MGW	30,480kg 67,200lbs
	Tare weight	3,400kg 7,500lbs
	Max payload	27,080kg 59,700lbs
