

Container Leasing, Sale and Design

CS Leasing is your committed partner for standard and specialised containers. We specialise in the leasing, sale and design of containers and intermodal equipment, delivering flexible, innovative solutions through our global network of offices, agents and depots. We are led by an international management team who individually have over 25 years' experience in their respective fields of container

procurement, leasing and operations. Our knowledge, dedication and agility ensure you receive the best-fit solution for your logistical and finance needs. We offer a young diversified fleet of high-calibre containers and we continually invest in our fleet to meet market demand and the needs of our customers. Visit our website for detailed information on our fleet, the services we offer and our capabilities.
